# JOB Fit Report

**Natural Behavior**

Honor Rahman

This Report is a product of PDA International. PDA International is the leading provider of applied behavioral assessments for the selection, management and development of talent.

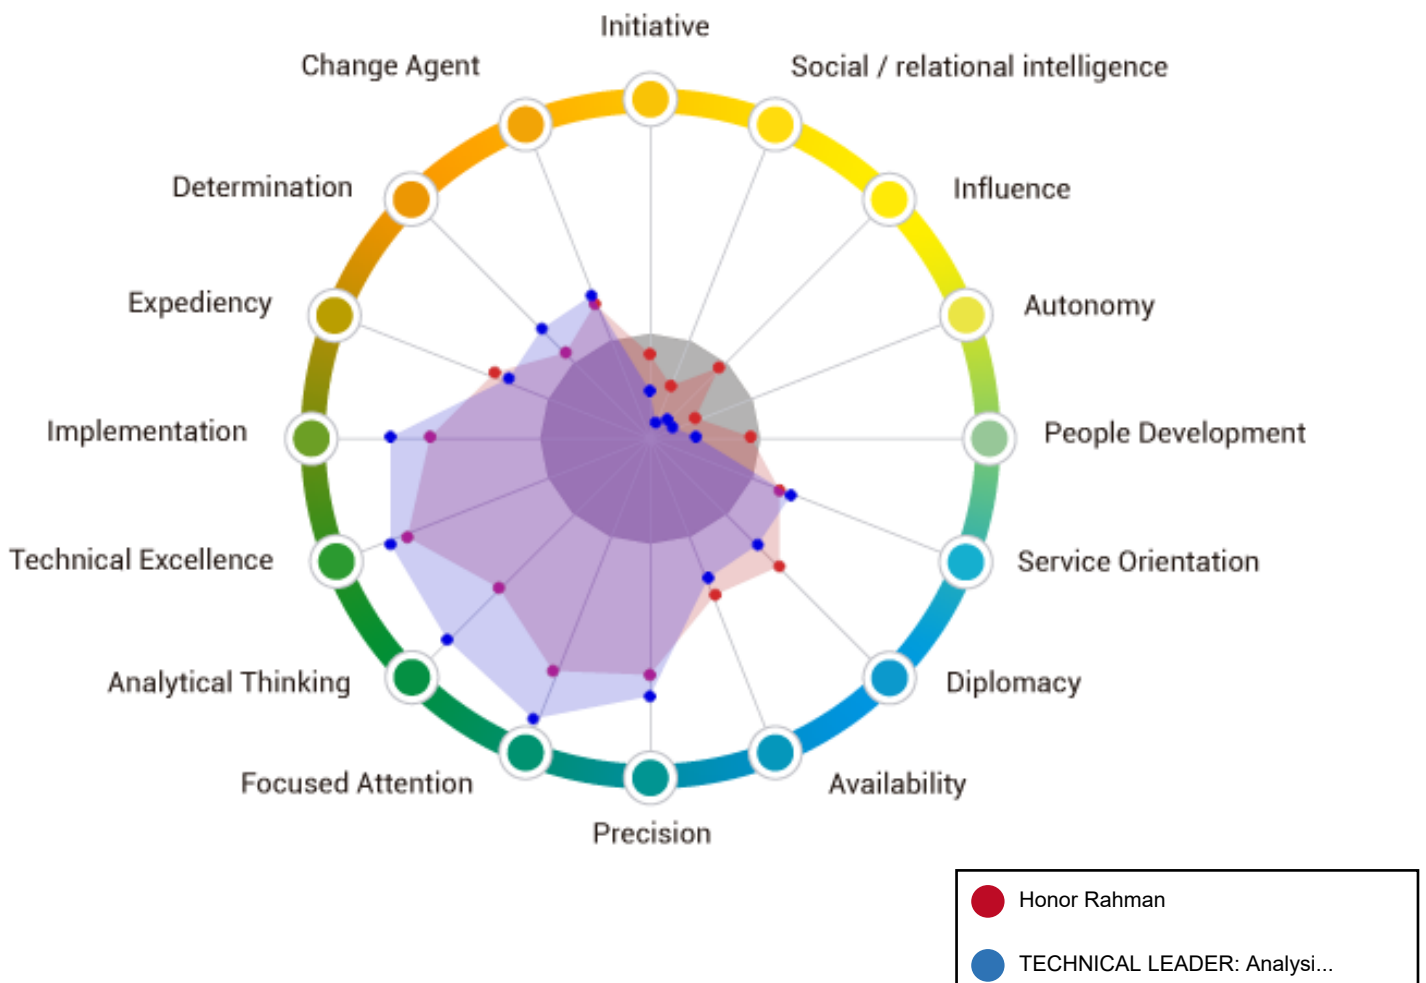

Compatibility between Honor's Natural Profile (PS: 32 26 42 100 0) and job TECHNICAL LEADER: Analysis – Control – Procedures (Leadership Styles) (PS: 50 0 50 100 50)

Very good

When the indicator is in this range, the Correlation is “Very Good,” and there is a good possibility that the individual will respond successfully to the behavioral requirements of the position.

## Behavioral Radar Chart

## R Risk Axis

Cautious

Risk-Taker

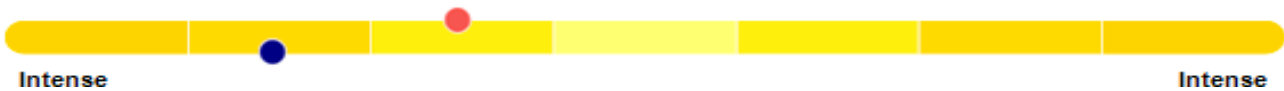

This indicates that the job requires an individual who, depending on the situation, can be direct, demanding and competitive – someone who is motivated by accepting moderate risks. However, Honor is kinder and less confrontational, and although he may sometimes be direct, demanding and competitive, he would have to make quite an effort to respond to this job requirement.

## E Extroversion Axis

Introverted

Extroverted

This indicates that the position requires an individual who is formal, introverted and thoughtful – someone who is motivated by working in small groups or alone. Honor has these attributes as part of his Natural style.

## P Patience Axis

Restless/Impatient

Calm/Patient

This indicates that the position requires an individual who, depending on the situation, can respond in a relaxed, calm and patient way, but who can also be somewhat more dynamic and restless at times – someone who is motivated by some versatility and consistency. Honor has these attributes as part of his Natural style.

## N Conformity to Norms Axis

Independent

Adherence to rules

This indicates that the position requires an individual who is naturally and spontaneously detail-oriented and disciplined, acting in adherence to standards and procedures – someone who is motivated by structure, consistency and reassurances that he is doing things the right way.
